Absolutely phenomenal performers

I hired Jazzona for a corporate Grand Opening party and from start to finish they were the most professional, easy to work with, knowledgeable performers I have hired this year. I had very specific needs for the sound for the event which changed rapidly as we approached the day of the event and Doug was so easy to work with and really made sure the band had clear, easy to hear music that exceeded our needs. I have never had a singer so complimented by the crowd as Jazzona, and the music was absolutely perfect for the whole event. I can't recommend them more and if I ever have more events in this region of the country my first contact will be with Jazzona.
